

"The Peak of Good Living"

Office of the Mayor
Jacques K. Gilbert

TOWN OF APEX NORTH CAROLINA

February 26, 2021

Dear MLK Planning Committee:

I express my appreciation to all of you for your dedication to making Apex's first MLK activities ones of which I am very proud. You gave the events purpose and insight with the added value of opportunities for educational and personal growth.

Your discussions of our history and how we can move forward for the betterment of our world were thought provoking and real. You provided a platform that the audience could step onto to become agents for understanding and change.

We said throughout this quest that we were looking forward to you working on this next year. That was not to be taken lightly (smile) - we DO want you back for as long as you are willing to be a part of the effort. We understand that this year may have been rushed. Moving forward, we will begin earlier to give you ample time to execute your plans.

Thank you again for unselfishly using your time, talents, and knowledge, and for representing Apex in an outstanding manner that complimented our values and goals! You are an example of my creed - "There is nothing we can't accomplish when we work together".

If I can ever be of assistance, please let me know. God bless.

Jacques K. Gilbert, Mayor
